

## STATEMENT FROM FLINDERS POWER RE AUGUSTA POWER STATIONS' SITE

FRIDAY UPDATE (26 May 2017)

### Status update

#### Long Term Ash Storage Area Program

- Carting of top soil to the Ash Storage Area recommenced on Monday 22 after weather-related delays.
- Priority areas for top soil spreading are the Southern two bays off access fingers 1 and 2, the Southern “ash borrow pit” area and the Eastern end of access fingers 3 and 4.
- Seven trucks, five D6 dozers, one 30t excavator, one PistenBully and one 45t excavator are working at the site.
- Dust monitors remain in operation to provide real-time data for monitoring and reporting.

#### Polishing Pond

- Water in the polishing pond has increased following the recent rains. Flinders Power personnel continue to monitor the pond for odour.

#### Augusta Power Stations Site Enquiries
