

STATEMENT FROM FLINDERS POWER RE AUGUSTA POWER STATIONS' SITE

FRIDAY UPDATE (23 June 2017)

Status update

Long Term Ash Storage Area Program

- Carting of top soil to the Ash Storage Area continues.
- Priority areas for top soil spreading are in preparation for seeding in the middle 2 zones of the ASA
- Seven trucks, five D6 dozers, one 30t excavator, one PistenBully and one 45t excavator are working at the site.
- Dust monitors remain in operation to provide real-time data for monitoring and reporting.

Ash Storage Area Revegetation

- Seeding was completed in the southern portion of the borrow pit this week.
- Native vegetation seeding on the topsoil commenced on the ASA today June 23.

Polishing Pond

- Water in the polishing pond has increased following the recent rains. Flinders Power personnel continue to monitor and manage the pond for odour.
